Dear Mr. Bailey:

In conjunction with the Manhattan Trail Committee, Gallatin County is willing to support an application for a feasibility study to be completed on a proposed trail from Manhattan, MT to Three Forks, Montana. If in the event the proposed trail is a viable project, Gallatin County is willing to support the construction of the trail and discuss the long-term operation and maintenance of the trail.

Thank you for your follow-up information about the process of working with Montana Rail Link.

Best Regards,

Gallatin County Commission
